Projektidee & Elevator Pitch

Flyer befindet sich im anderen Tap!

Technische Highlits

- Preset-mechanik
- Login & registrieren

Teil 1 - Das speichern von Presets

```
localStorage.setItem(`${user}-preset`, JSON.stringify(preset));
document.getElementById("sav").innerHTML = "Preset gespeichert!";
document.getElementById("sav").style.color ="#f4a300"
setTimeout(() => {
    document.getElementById("sav").innerHTML = "Preset speichern";
    document.getElementById("sav").style.color ="white"
},2000)
}
```

```
// Aktuelles Outfit speichern
function savePreset() {
  let user = localStorage.getItem("loggedInUser");
  if (!user) {
     document.getElementById("sav").innerHTML = "Zuerst einloggen!";
      document.getElementById("sav").style.color ="#f4a300"
     setTimeout(() => {
    document.getElementById("sav").innerHTML = "Preset speichern";
    document.getElementById("sav").style.color ="white"
   },2000)
    return;
  let preset = {
    shirt: {
      src: document.getElementById("select-shirt").value,
      class: document.getElementById("shirt").className
    pants:
      src: document.getElementById("select-pants").value,
      class: document.getElementById("pants").className
    shoes:
      src: document.getElementById("select-shoes").value,
      class: document.getElementById("shoes").className
    accessory: {
      src: document.getElementById("select-accessory").value,
      class: document.getElementById("accessory").className
```

Teil 2 - das Laden von Presets

```
// Outfit aus Preset laden
      function loadPreset() {
        let user = localStorage.getItem("loggedInUser");
        let preset = JSON.parse(localStorage.getItem(`${user}-preset`));
        // Werte in Selects setzen
        document.getElementById("select-shirt").value = preset.shirt.src;
        document.getElementById("select-pants").value = preset.pants.src;
        document.getElementById("select-shoes").value = preset.shoes.src;
        document.getElementById("select-accessory").value = preset.accessory.src;
        // Bilder setzen & Klassen wiederherstellen
        applyClothing("shirt", preset.shirt.src, preset.shirt.class);
        applyClothing("pants", preset.pants.src, preset.pants.class);
        applyClothing("shoes", preset.shoes.src, preset.shoes.class);
        applyClothing("accessory", preset.accessory.src, preset.accessory.class);
410
411
```

Teil 3 - Login & Registrieren

```
function registerUser(event) {
      event.preventDefault();
      let userName = document.getElementById("reg-User").value;
      let password = document.getElementById("reg-password").value;
7
      if (localStorage.getItem(userName)) {
        document.getElementById("text").innerHTML="Der Benutzer existiet bereits!";
        document.getElementById("bestaetigung").style.display ="block";
        return;
      localStorage.setItem(userName, JSON.stringify({ password }));
       document.getElementById("text").innerHTML="Registrierung erfolgreich!";
       document.getElementById("bestaetigung").style.display ="block";
       setTimeout(() => {
        window.location.href = "login.html";
       },2000)
```

Teil 4- Login & Registrieren

```
// Login überprüfen
function loginUser(event) {
 event.preventDefault();
  let userName = document.getElementById("login-userName").value;
  let password = document.getElementById("login-password").value;
 let user = JSON.parse(localStorage.getItem(userName));
 if (user && user.password === password) {
   localStorage.setItem("loggedInUser", userName);
   document.getElementById("text").innerHTML="login erfolgreich!";
  document.getElementById("bestaetigung").style.display ="block";
  setTimeout(() => {
   window.location.href = "../index.html";
   },2000)
  } else {
  document.getElementById("text").innerHTML="Falsche Zugangsdaten!";
  document.getElementById("bestaetigung").style.display ="block";
  setTimeout(() => {
  document.getElementById("bestaetigung").style.display ="none";
  document.getElementById("login-userName").value = "";
  document.getElementById("login-password").value = "";
   },2000)
```
